PROFESSIONAL SUMMARY

Aspiring Data Analyst skilled in Python, Excel, Power BI, Tableau, and relational databases. Experienced in data extraction, transformation, and analysis using Oracle and AWS, with hands-on experience in data cleaning and anomaly handling. Built a Python-based stock analysis platform to derive market insights and support data-driven decisions.

TECHNICAL SKILLS

Programming: Python, SQL

Databases: MySQL, PostgreSQL, Oracle, DBMS

BI & Analytics Tools: Excel, Power BI, Tableau

Python Libraries: Pandas, NumPy

Database & IDE Tools: Oracle SQL Developer, DBeaver, VS Code, GitHub

Data Analysis: Data Cleaning, Data Analysis, Report Generation

EDUCATION

Master of Computer Applications (MCA) 2025 – 2027 | Pursuing

Chetan Business School (CBS) – Institute of Management, IT and Research, Hubli, Karnataka

Bachelor of Computer Applications (BCA) 2021 – 2024 | CGPA: 8.3 | Karnataka University

KLE Society's College of BBA & BCA, Dharwad, Karnataka

Pre University Course – (Science) 2018 – 2021 | Percentage: 53 | Board: Karnataka State Board

Karnataka Science College, Dharwad, Karnataka

INTERNSHIP / WORK EXPERIENCE

Data Analytics Intern | Vistaar Financial Services Private Limited Bangalore, Karnataka | Feb 2025 – Apr 2025

- Improved data extraction processes from Oracle database and AWS cloud platforms(S3) using SQL, achieving reduction in senior analyst workload.
- Gained hands-on experience with Oracle SQL Developer and DBeaver for enterprise database management.

PROJECTS

Stock/Index Time Frame Analyser (Candle Miner) Python, React, Pandas, NumPy

- Developed an end-to-end data mining platform that ingests raw stock-price CSV files for structured analysis of market data.
- Applied data-processing and clustering techniques to analyze and group market behavior patterns.
- Built a quantitative workflow to reduce reliance on manual chart analysis and support data-driven market analysis.

Project link: stock-movement-predictor.vercel.app/

Secure E-Commerce & Curated Antique Marketplace (AntiQues) Next.js (React), MySQL, Three.js

- Developed a responsive full-stack e-commerce application with user registration, catalog filtering, cart management, and shipping logistics tracking.
- Implemented MySQL-based data storage and management for products, users, carts, and orders.
- Built an owner dashboard to manage products and monitor orders and operational data.

PROFESSIONAL DEVELOPMENT

Deloitte Australia Technology Job Simulation – Forage Sep 2025

- Completed a technology job simulation involving real-world development and coding challenges.
- Applied problem-solving, ideation, and technical skills in a simulated consulting environment.
